

# **How many energy storage power stations does Zimbabwe have now**

## Overview

---

What is the energy supply industry in Zimbabwe?

The Energy Supply Industry in Zimbabwe consists of the Ministry of Energy and Power Development (MoEPD), the Zimbabwe Energy Regulatory Authority (ZERA) and the Zimbabwe Electricity Supply Authority (ZESA) Holdings which is the national holding company for electricity generation, transmission and distribution companies.

How many power plants are there in Zimbabwe?

Despite having a vast renewable energy potential, 18 IPPs produce just about 136 MW of power for own consumption or for trading, out of which 36 MW is generated from Renewable sources. The rest of their production is dominated by government owned power entities. Zimbabwe Power company (ZPC) operates and manages five power stations.

How much electricity does Zimbabwe produce?

About 50% of Zimbabwe's electricity demand is driven by the mining and other heavy industries. Despite having a vast renewable energy potential, 18 IPPs produce just about 136 MW of power for own consumption or for trading, out of which 36 MW is generated from Renewable sources.

Who owns Zimbabwe Power Station?

It is owned and operated by the national electricity company Zimbabwe Electricity Supply Authority. It was built in two stages and consists of 4 units of 120 MW each, 2 units of 220 MW each and 2 units of 300 MW each. Engineering Consultants, Merz & McLellan, were employed for the design and supervision of the construction of the power station.
