

How much does a 100kW collapsible container cost in the Middle East

Overview

For these containerized systems, starting at roughly 100 kWh and extending into the multi-MWh range, fully installed costs often fall in the USD \$180-\$320 per kWh range. How much does a 40ft container cost?

Drewry's World Container Index puts the global average price of shipping a 40ft container at \$1,859 (USD) for 13 November, 2025. Between now and the end of the year, container shipping prices will likely remain soft particularly if the current ceasefire between Israel and Palestine enables more shipping traffic to flow through the Suez canal.

Are global container shipping rates still 46% lower than last year?

Global container shipping rates are still 46% lower than they were in November last year. Drewry's World Container Index puts the global average price of shipping a 40ft container at \$1,859 (USD) for 13 November, 2025.

Are new shipping containers more expensive than used?

New containers are typically more expensive as they are in perfect condition and ready for long-term use. Used containers are less costly but have some wear and tear. Shipping container sizes and prices are directly linked to each other. The price also depends on how well the container has been maintained over time.

How much does container shipping cost?
