# How to connect the power supply of shortwave base station

## Overview

---

How much does a QJE ps30swvii cost?

Sale! \$ 291.22 Original price was: \$291.22. \$ 148.00 Current price is: \$148.00.  
QJE Power Supply PS30SWVII 13.8V 30A Regulated Switching Power Supply  
shortwave base station Regulator power supply \* With Anderson interface,  
widely used in European and American HAM.

How do I set up a base station?

Set up the base station using either the tripod or T-bar mounting method. You must use an external radio antenna kit for the internal 450 MHz or 900 MHz radio. To avoid interference between the 900 MHz radio and GPRS transmissions, do not mount the external radio antenna within 1 m (3.3 ft) of the GSM antenna.

What is QJE power supply ps30swvii?

QJE Power Supply PS30SWVII 13.8V 30A Regulated Switching Power Supply  
shortwave base station Regulator power supply \* With Anderson interface,  
widely used in European and American HAM. Small size, large current,  
arbitrary assembly, regardless of male and female, support hot swap, avoid  
sparking.

What is a managed base station?

Trimble recommends that base stations that are connecting from a portable, daily-use setup are treated as unmanaged base stations and those used for permanent or semi-permanent setups where the receiver will be in the same place for a longer period of time are treated as managed base stations.
