

# **How to install batteries in a 3-cell battery cabinet**

## Overview

---

How do I install a battery cabinet?

Between each battery cabinet and the UPS or battery disconnect using conduit. Battery cabinets may be installed adjacent to the UPS or in a separate location. If the battery cabinet is installed adjacent to the UPS, the recommended installation location for the battery cabinet is on the right side of the UPS cabinet.

How do you put in a battery?

To put in batteries correctly, start by identifying the positive (+) and negative (-) terminals on both the battery and the device. For standard batteries, press the flat negative end against the spring in the compartment, then secure the positive end. For 9-Volt batteries, align the snaps at a slight angle before pushing down.

How do I put the batteries in the battery swapping cabinet?

Here is the complete guide on how to put the batteries in the battery swapping cabinet with a hard connection, step by step: Use the Tycorun Energy App to scan the qr code. Then you will hear the voice announcement "Please put the battery in the designated slots." The battery is returned successfully.

How do you install a battery holder?

For AA, AAA, C, and D batteries, insert with the negative end against the spring; check for proper alignment. For 9-Volt batteries, align connectors at a 30-degree angle, press down firmly to secure them in place. Close the compartment securely after installation and regularly inspect for corrosion or damage.
