

# Huawei Cyprus solar module project

## Overview

---

What kind of solar panels do you offer in Cyprus?

JPB Energy offers two types of solar panels: Bifacial and non-Bifacial. Bifacial panels have the advantage of producing electricity from both sides. We recommend these panels. Please note that JPB Solar Energy Cyprus is limited to offering solar panels that cover up to 90% of your annual electricity consumption.

Does JPB Solar Energy Cyprus provide solar panels?

JPB Solar Energy Cyprus offers solar panels that can cover up to 90% of your annual electricity consumption. According to the Cyprus government directive, the electricity production of an average photovoltaic system installed by JPB Solar Energy Cyprus is 1600-kilowatt hours (kWh) per installed kilowatt (kWp).

Why do we install Huawei inverters in Cyprus?

Our team of experts ensures that we only choose inverters that meet the highest standards and provide optimal performance for our clients' photovoltaic systems in Cyprus. That's why we install Huawei inverters in Cyprus, which are among the most efficient and reliable in the market. Always at the forefront of innovation.

Why is Huawei a leading technology provider?

As one of the leading providers of information and communications technology infrastructure and smart devices globally, Huawei also integrates its innovative technologies in the field of energy and photovoltaic systems.

## Huawei Cyprus solar module project
