

Huawei Southeast Asia Portable Energy Storage Power Supply

Overview

How will Huawei & Keppel work together?

Through this partnership, we will harness Huawei's digital power technologies and Keppel's deep expertise in energy infrastructure to enhance the reliability and seamless integration of renewables with state-of-the-art energy storage.

Why is Huawei reshaping the future of Energy Innovation?

By leveraging Huawei's cutting-edge digital power technologies and Keppel's expertise in energy management, we are not only meeting the growing demand for renewable energy to support Singapore's global leading position in green development – we are reshaping the future of energy innovation.

Why is Huawei partnering with Singapore?

The partnership aligns with global sustainability targets and supports Singapore's Green Plan 2030. According to Maxi Wang, CEO of Huawei International, the initiative reinforces Singapore's leadership in the global green economy, meets rising demand for renewable energy, and helps reshape the future of energy innovation.

Does Keppel have a partnership with Huawei?

In a joint statement released on May 13, Keppel revealed that the two companies have signed a Memorandum of Understanding (MoU). The first initiative under the partnership will be a demand response program in Singapore, combining Keppel's energy storage systems with Huawei's digital technology capabilities.
