Huawei double-glass solar modules in Sao Paulo Brazil

Overview

Is Brazil a solar power producer?

It is now one of the world's largest solar power producers. In 1997, Brazil's National Energy Policy Act outlined an overall framework for promoting renewables and encouraged the development of clean energy, including solar energy.

Which companies are partnering with Huawei?

For example, Bel Energy, a leading player in Brazil's PV equipment distribution market, has formed a strong partnership with Huawei, known for its innovative PV solutions. Connectoway, which was previously Huawei's solution partner in the telecom industry, now collaborates with Huawei in the solar PV business.

What makes HDT different from other companies in Brazil?

According to Leonardo, HDT has a better understanding of the local situation in Brazil, including the business models and local cultures, and has strong relationships with local investors, distributors, and service providers.
