Huawei manufactures energy storage vehicle solutions

Overview

Are Huawei & SAIC planning a new energy vehicle production base?

According to the reports, Huawei and SAIC are now penning agreements with the Lingang New Area to create a new line of energy vehicles (EV) and battery plants to power them. The aim of this agreement with the Lingang in Shanghai's free trade zone is to build the "Shangjie High-end Intelligent New Energy Vehicle Production Base".

Why is Huawei pursuing solid-state battery research?

Huawei's engagement in solid-state battery research reflects a wider trend among Chinese technology and automotive companies. Although Huawei does not manufacture power batteries directly, its growing interest in upstream battery materials is notable.

Does Huawei have a sulfide battery?

Huawei has intensified its ambitions in advanced energy storage by patenting a sulfide-based solid-state battery capable of achieving driving ranges of up to 3,000 kilometres and ultra-fast charging in just five minutes.

Does Huawei make cars in China?

Currently, Huawei doesn't manufacture its own branded vehicles in China, but instead works with various automakers to apply some of its existing technologies to vehicles. The end of range anxiety?

Mercedes' solid-state battery tech just drove 749 miles without a stop
