Invest in energy storage batteries

Overview

Should you invest in battery energy storage systems?

Investors that make the right decision in the right market can reap lucrative returns while helping to build a more sustainable energy system. Topics discussed include: In this webcast, panelists discuss global investment trends in battery energy storage systems (BESS).

Which sector has the most battery energy storage deals?

The industrial sector secured the most battery energy storage system deals, followed closely by the energy and utility sector. In the largest transaction, battery storage company NineDot Holdings Inc. raised \$225 million in a round of funding led by Manulife Investment Management Ltd., with participation from existing backer The Carlyle Group Inc.

Why do we need battery storage systems?

This is because a few renewable sources like solar and wind are intermittent and battery storage systems help bridge this gap by storing excess energy produced during peak generation periods and releasing it when needed.

Are battery energy storage systems reliant on a resilient electricity grid?

However, the electrification process is heavily reliant on a reliable, resilient electricity grid. And deploying battery energy storage systems (BESS) at grid scale is vital in order to ensure the electricity grid is sufficiently resilient.
