

# Iron Flow Battery Company

制造厂家：上海汇珏科技集团股份有限公司

产品型号：DPF- -48V/500A-G-S

智能监控单元质保期：10年

浪涌保护器质保期：10年

断路器质保期：10年

## Overview

---

Developed using an advanced metal complex and membrane, Iron-Flow Batteries is based at the Paris Flow Tech platform – a premier hub for innovation in continuous flow chemistry. What are iron flow batteries?

They offer a safe, non-flammable, non-explosive, high power density, and cost-effective energy storage solution. In essence, iron flow batteries are electrochemical cells where an electrolyte stored in external storage tanks acts as an energy source.

Where is Iron-Flow batteries based?

Developed using an advanced metal complex and membrane, Iron-Flow Batteries is based at the Paris Flow Tech platform – a premier hub for innovation in continuous flow chemistry. This state-of-the-art facility fosters the development of breakthrough technologies like ours through cutting-edge research and collaborative expertise.

Are iron flow batteries better than Li-ion batteries?

Iron flow batteries have a longer asset life than Li-ion batteries. Battery manufacturers are collaborating with utility companies to implement iron flow battery projects, aiming to replace diesel-fueled power generation with the more environmentally friendly flow battery system.

What are flow batteries?

According to the Department of Energy's ARPA-e division, "flow batteries store chemical energy in external tanks instead of within the battery container. Using iron provides a low-cost, safe solution for energy storage because iron is both abundant and non-toxic.

## Iron Flow Battery Company
