# Is there any export tariff on energy storage batteries in Bucharest

## Overview

---

Why is battery storage important in Romania?

This policy shift aligns Romania more closely with EU energy goals, where battery storage is increasingly recognized as an enabler of grid flexibility, renewable integration, and energy security.

How does tariff risk affect a battery energy storage system (BESS) project?

Mitigating tariff risk in battery energy storage system (BESS) projects is crucial for ensuring project financial viability, as tariff changes can significantly affect cost structures and overall project economics.

Why is Romania removing double taxation on energy storage?

Romania's elimination of double taxation on energy storage is more than a technical adjustment—it's a strategic inflection point. By aligning its regulatory framework with market realities, the country is removing one of the last structural barriers to widespread BESS adoption.

Will China impose tariffs on lithium-ion EV batteries?

An interesting issue will be the imposition of tariffs. There are existing tariffs pursuant to Section 301 of the Trade Act of 1974 on some Chinese-origin lithium-ion EV batteries and non-lithium-ion battery parts, which were increased to 25% in September 2024.

## Is there any export tariff on energy storage batteries in Bucharest

---

Romania ends double taxation of energy ...

Jul 9, 2025 · The National Energy Regulatory Authority of Romania has approved a regulation eliminating double taxation of energy storage, to ...

---

Romania Removes Double Taxation to Boost ...

Jul 15, 2025 · Romania eliminates double taxation on battery energy storage systems to attract investors and accelerate renewable integration across ...

---

Addressing Tariffs and Trade in Energy ...

Mar 7, 2025 · Tariffs on Chinese-origin lithium-ion non-EV batteries are scheduled to increase to 25% effective January 1, 2026. Otherwise, ...

---

Addressing Tariffs and Trade in Energy Storage Projects

Mar 7, 2025 · Tariffs on Chinese-origin lithium-ion non-EV batteries are scheduled to increase to 25% effective January 1, 2026. Otherwise, batteries of non-Chinese origin storage batteries ...

---

EU-US Trade Deal Sets 15% Tariff: Implications for EV Battery ...

Jul 28, 2025 · While the agreement includes exemptions for aerospace and certain critical raw materials, both electric vehicles and semiconductors--crucial components in modern EV ...

---

How EU Tariffs Will Impact the Battery Electric Vehicle Market

Nov 19, 2024 · Thanks to a customs union--an agreement to eliminate tariffs -- between Turkey and the EU, these investments could allow Turkey to serve as an export hub to the EU for ...

---

Romania Removes Double Taxation to Boost Battery Energy Storage ...

Jul 15, 2025 · Romania eliminates double taxation on battery energy storage systems to attract investors and accelerate renewable integration across the national grid.

---

Romania removes double taxation of stored electricity from ...

Nov 28, 2024 · The transmission tariff is split into two components: the extraction tariff, levied on users when they import electricity from transmission and distribution networks; and the ...

---

Sodium-ion Battery Import Tariffs by Region

As global demand for energy storage accelerates, manufacturers face a critical choice: continue paying soaring tariffs on lithium-ion batteries--or explore a smarter, more cost-effective export ...

---

Romania removes double taxation on energy storage

Jul 15, 2025 · Romania's National Energy Regulatory Authority (ANRE) has taken aim at accelerating energy storage solution deployment by eliminating the double taxation on stored ...

---

Is there any export tariff on energy storage batteries in Bucharest

The increase in tariffs for lithium-ion batteries from China from 7% to 25% was announced last week (14 May), effective this year for EV batteries and from 2026 for non-EV batteries, ...

---

US Tariff Impact on Long Duration Energy Storage Industry

Apr 10, 2025 · Companies invest in advanced solutions such as hydrogen-based storage, thermal storage, and organic flow batteries to offset tariff-related expenses while improving efficiency.

---

Romania ends double taxation of energy storage

Jul 9, 2025 · The National Energy Regulatory Authority of Romania has approved a regulation eliminating double taxation of energy storage, to allow for faster deployment of solutions for ...
