

FTMRS SOLAR

Jakarta New Energy solar Glass Component Factory

Overview

Why is Indonesia launching a new PV glass project?

The projects, which are designed to meet the growing demand for PV glass in the overseas market, will be launched by Indonesia Flat Photovoltaic Co., Ltd, a wholly owned subsidiary of Flat Glass Group. The new investment is expected to expand its PV glass production capacity, especially in Indonesia, to reduce costs.

Is Longi launching a state-of-the-art solar panel manufacturing facility in Indonesia?

LONGi as officially launched a strategic project to establish a state-of-the-art solar panel manufacturing facility in Indonesia, in collaboration with Pertamina New & Renewable Energy.

Why is PV glass made in Indonesia?

As an offtaker of our PV-Glass-Grade Silica, the factory ensure a stable offtake and a secure supply chain for the silica refinery. Coupled with other raw materials like soda ash, alumina, limestone, and other coming from local sources, the resulting PV Glass contains almost 100% local content – eligible to earn the Made in Indonesia title.

Why should Indonesia invest in Xinyi Glass & Xinyi Solar?

The presence of Xinyi Glass and Xinyi Solar in JIipe strengthens Indonesia's position as a hub for green industry in Southeast Asia, with modern infrastructure and policies that facilitate renewable energy development. JIipe remains the top choice for investors supporting green economic growth and energy sustainability in the region.
