# Japan Chemical Park Energy Storage Project Construction

## Overview

---

What are some examples of energy management projects in Japan?

Another example is the Kitakyushu Smart Community Project, which involves various forms of energy management including a 1 MW BESS system. Stonepeak and CHC's energy storage platform will develop five new battery storage projects in Japan. These projects have a combined capacity.

How many battery storage projects will Stonepeak and CHC develop in Japan?

Stonepeak and CHC's energy storage platform will develop five new battery storage projects in Japan. These projects have a combined capacity of 348 megawatts (MW). The deals were finalized under Japan's Long-term Decarbonization Auction. These projects were selected as part of Japan's latest long-term auction focused on low-carbon energy.

How do storage systems work in Japan?

Storage systems like BESS help keep power systems stable, especially when more electricity comes from solar and wind sources. Other projects in Japan include a municipal BESS project in Iida City, Nagano Prefecture. This small-scale system, with an installed capacity of 2 MW/4 MWh, is operated by a city-owned energy company.

How big is Japan's energy storage capacity?

Global energy storage capacity was estimated to have reached 36,735MW by the end of 2022 and is forecasted to grow to 353,880MW by 2030. Japan had 1,671MW of capacity in 2022 and this is expected to rise to 10,074MW by 2030. Listed below are the five largest energy storage projects by capacity in Japan, according to GlobalData's power database.

## Japan Chemical Park Energy Storage Project Construction

---

Energy Storage Platform Backed by Stonepeak and CHC ...

Apr 29, 2025 · Five 20-year fixed revenue capacity market contracts secured through Japanese government's second Long-term Decarbonization Auction NEW YORK & TOKYO - April 29, ...

---

Japan: Large-scale battery storage opportunities in an ...

Jul 15, 2025 · Eku Energy COO Tom Best at a ceremonial event to mark the start of construction at the 30MW/120MWh Hirohara BESS in September 2024. Image: Eku Energy Japan's energy ...
