

# Kathmandu joins solar power generation system

## Overview

---

Does Nepal have a role in promoting solar energy?

The embassy highlighted Nepal's growing role in combating climate change and promoting solar energy through the alliance. The \*ISA\*, launched by India and France in 2015, aims to harness the power of solar energy among member countries and accelerate solar projects worldwide.

Is solar energy a viable alternative for power generation in Nepal?

“ Nepal receives optimal sunlight of approximately 300 days on average during the year with a total solar radiation of 3.6 – 6.2 kWh / m<sup>2</sup> / day with an average of 4.7 kWh / m<sup>2</sup> / day, making solar energy a significant renewable alternative for power generation in Nepal.

Why is Nepal joining the International Solar Alliance?

By joining the ISA, Nepal is set to leverage international cooperation in solar energy, positioning itself as a key player in the global shift towards renewable energy. Kathmandu: In a landmark move towards sustainable energy, Nepal has officially become the 101st member of the \*International Solar Alliance (ISA)\*.

Is Nepal joining the Global Solar Coalition?

The announcement was made during a special event in New Delhi, where Nepal's Charge d'Affaires, \*Surendra Thapa\*, handed over the Instrument of Ratification to ISA officials, marking the country's formal inclusion in the global solar coalition.
