# Kingston Battery Energy Storage Enterprise

## Overview

---

Will Tesla build a grid-scale battery energy storage station in China?

Tesla has officially signed a ¥4 billion (C\$764/US\$557 million) deal to build its first grid-scale battery energy storage station in China, leveraging its Megapack technology.

Why is Tesla building a large-scale energy storage facility in China?

Their growing use helps stabilize power grids, prevent outages, and reduce reliance on fossil fuels. This project is Tesla's first large-scale energy storage installation in China, complementing its existing automotive manufacturing presence in the city through Giga Shanghai.

Where is Tesla's Energy Storage Super Factory located?

Situated in Shanghai's Lin-gang Special Area, the plant marks Tesla's inaugural venture into an energy storage super factory project outside the United States, showcasing the company's rapid advancements in the energy storage sector.

How big will the battery storage market be by 2030?

Bloomberg predicts that by 2030, the global market demand for energy storage batteries will reach 1,000 GWh, with a market size of \$1.2 trillion, highlighting the enormous potential of the battery storage market. Source: [eastday.com](http://eastday.com)
