

# **Kyrgyzstan Regulations on Uninterrupted Power Supply and Generation for solar container communication stations**

## Overview

---

What are the objects of regulation in Kyrgyz Republic?

According to the law, objects of regulation are: “production, consumption, and sale of heat, electric energy and fuel using renewable energy sources, as well as the production and supply of equipment and technologies in the field of renewable energy source” (Ministry of justice of the Kyrgyz Republic, 2008).

When does the new energy regulation come into force in Kyrgyz Republic?

In November 2020, the new regulation came into force named “On the conditions and procedure for the implementation of activities for the generation and supply of electricity using renewable energy sources” (Cabinet of Ministers of the Kyrgyz Republic, 2020).

What is Kyrgyz energy policy?

Outlook to the Kyrgyz energy policy To unleash the RE capacity, the Kyrgyz government introduced the law titled “Renewable energy sources (RES)” in December 2008 (Ministry of justice of the Kyrgyz Republic, 2008). Kyrgyzstan was the first country in Central Asia who implement RE-based law.

Why is energy policy important in Kyrgyzstan?

The current energy policy is considered as one of the key barriers to the developing the renewable energy sector in Kyrgyzstan. Hence, there is an immediate need to evaluate the formulated energy policy to investigate gaps and uncertainties.
