Latvian pure sine wave 50kw inverter

Overview

What is a high power 50kW grid tie solar inverter?

High power 50kW grid tie solar inverter converts 200-820V DC to 3 phase 380 volt, 460 volt and feed the power into the grid, high reliability due to perfect protection function, powerful communication interfaces, easy operation and installation.

What is a pure sine wave output?

Pure sine wave output. With a good dynamic response of less than 50MS, the waveform distortion rate is smaller, with higher conversion efficiency and stable output voltage. Adopts a black pure aluminum radiator, which confirms the best radiating performance. Powerful data display function.

What is the cooling method of 50 kW on grid inverter?

The cooling method of 50 kw on grid inverter is cooling fan. And strong IP65 protection, completed sealed cover of 3 phase grid connected inverter suitable for harsh environment.

Why is a grid tie PV inverter IP65 rated?

IP65 rating also provides protection against low-pressure water jets from any direction, allowing the grid tie pv inverter to be installed outdoors without risk of water damage. IP65 protection increases durability, reduces maintenance needs, and ensures stable performance in challenging conditions.
