# Latvian wind solar and energy storage project adjustment

## Overview

---

Who is responsible for the energy transition in Latvia?

Local authorities are responsible for municipal energy supply and renewable energy projects, with Latvia's energy transition guided by the National Energy and Climate Plan and the Energy Strategy 2050.

What is Latvia's recovery and Resilience Plan?

Latvia's Recovery and Resilience Plan plays a key role in the energy transition, supporting economic recovery through major investments in renewables like wind, solar, and biomass, as well as initiatives such as a 60 MW Battery Energy Storage System by 2026 and cross-border projects to synchronize with Continental Europe .

When will battery energy storage systems be installed in Latvia?

The most recent update regarding BESS installations is that in Tume and Rēzekne, Latvia's transmission system operator "Augstsprieguma tīkli" (AST) in June 2025 installed battery energy storage systems with a combined capacity of 80 MW and 160 MWh, which will undergo testing until October 2025.

Is Latvia ready for a greener and more efficient future?

From the launch of the Energy and Environment Agency to advancements in renewable energy infrastructure and legislative reforms, Latvia is setting the stage for a greener and more efficient future.

## Latvian wind solar and energy storage project adjustment

---

### RECENT DEVELOPMENTS IN THE WIND ENERGY

There are currently 45 onshore wind projects with EIAs expected to be completed in 2025 (one EIA was completed in 2024). Without regulatory amendments, these projects will not have grid ...

---

Hoymiles Powers Latvia's Largest Energy Storage Project At ...

On November 1, 2024, Targale Wind Park held its grand opening, unveiling Latvia's first major energy storage facility. Hoymiles, as a key technology ...

---

Sunly starts construction of three solar parks ...

Nov 1, 2024 · Estonian renewable energy company Sunly is building three solar parks in Latvia with a cumulative capacity of 225 MW. The projects ...

---

From potential to progress: Latvia's renewable energy ...

Sep 16, 2024 · Latvia's renewable energy sector has seen significant evolution over the past several years. Initially, the country's renewable energy strategy relied heavily on hydropower, ...
