

# **Light-controlled home solar lights**

## Overview

---

What are indoor solar lights?

Indoor solar lights are energy-efficient, versatile, and portable lighting options that use solar energy. They are cost-efficient, long-lasting, and reliable during power outages. Indoor solar lights absorb sunlight during the day with solar panels and convert it into electricity to power the lights at night.

What is a solar lighting system?

A solar lighting system refers to an eco-friendly lighting solution that harnesses power from sunlight through photovoltaic (PV) panels. It captures and converts sunlight into electricity, which is then stored in batteries for use when needed, such as during the night or on cloudy days.

What are the best indoor lighting systems for your home?

The LOZAYI solar-powered lights are the ideal indoor lighting system for your home. These solar lights are apt for your yard, patios, front door, gazebos, etc. Additionally, they come with remote control operated functions with which you can modify or set the brightness as per your requirements.

How do I Manage my solar lights?

□App and Voice Control□Effortlessly manage your smart solar lights via the AiDot app. Utilize voice control with Amazon Alexa or Google Home after adding Linkind's Bluetooth Mesh Hub. □Light Shows and Music Sync□Bring outdoor spaces to life with music sync and light shows.
