# Lilongwe goes solar panels

## Overview

---

Do solar panels use a lot of electricity in Wollongong?

The average Wollongong home uses around 34% more electricity in winter than summer. The best angle to install solar panels in Wollongong is the angle your roof - yes, it's that simple. While roof angles vary greatly, the majority in Australia have a pitch of either 15 or 22.5 degrees.

Are solar panels affordable in Malawi?

A man welding a frame to mount solar panels in Malawi. The reduced cost of solar electricity has made electricity access affordable even to low-income households.

How many people have access to electricity in Malawi?

This is about 3.5% of the population provided with access in the past 12 months, bringing the total access rate in Malawi to around 23%, up from 19%. The target is to give access to 180,000 on-grid households and 200,000 Off-Grid households by the end of June 2025, translating to an additional 1.9 million people having access to electricity.
