Lithium power station factory in Mozambique

Overview

Will Jindal expand into lithium mining in Mozambique?

Parshant Kumar Goyal of Jindal Africa talks about the company's plans to expand into lithium mining in Mozambique.

Why will lithium be exported to India?

Lithium produced from the Mozambican concessions will be exported to India to meet the growing demand for critical minerals crucial for the energy transition in the market. The projects follow Deccan acquiring stakes in five lithium exploration blocks in Mozambique from Magnifica.

What materials are not produced in Mozambique?

Materials and equipment that are not produced in Mozambique, such as wash plant components, we typically obtain in South Africa. When companies have Mozambican dealerships, we go through the dealer instead of directly to the company so that local businesses can benefit.

How much coal does Mozambique mine?

In Mozambique, we mine around 5 million tonnes of run-of-mine coal per year, of which around 20% is metallurgical coal and 12% of thermal coal. We have mining concessions in South Africa, Botswana and Namibia for coal and iron ore and we are constructing a 700-MW thermal power plant in Botswana. How important is Mozambique in that portfolio?
