

# Long-life Folding Containers for Cement Plants

## Overview

---

What type of storage silo does AGICO cement provide?

AGICO Cement provides spiral silo, welded silo, bolted silo storage solution according to our customer's local condition and equipments. As one of the most successful storage silo solution manufacturers in China. AGICO Cement storage silo supplies various storage silos for bulk materials storage.

What are cement storage silos?

Cement storage silos are on-site storage containers that used for the storage and distribution of various types of cement mixtures. Spiral steel silos for cement storage come in a variety of sizes, which makes them ideal for both large-scale and small-scale cement plants.

How clinker can be stored in a cement silo?

The cement silo is equipped with a fluidization discharging system to achieve the homogenization of cement in the process of cement feeding and discharging. You can use steel silos, high wall silos and tent-shaped warehouse to store clinker. The storage capacity of a steel silo is 1-50,000t, and the silo body is steel structure.

What is the role of storage and transportation system in cement plant?

In each section of cement plant, storage and transportation system plays a decisive role. For example, raw material homogenization and transportation, clinker storage and transportation, as well as finished cement storage, conveying and distribution. SRON provides bulk material storage and transportation system solutions for cement plant customers.
