

Malaysia still has more 5g base stations than communications

Overview

Will Malaysia have a 5G network by 2025?

The rollout aims to provide widespread 5G coverage by 2025, unlocking opportunities for advancements in smart cities, healthcare, and logistics. In May 2023, the Malaysian government announced plans to introduce a second 5G network provider, contingent on DNB reaching 80% population coverage.

What is Malaysia's 5G rollout?

Malaysia's 5G rollout has been a central part of its connectivity strategy, with Digital Nasional Berhad (DNB) leading the deployment of 5G infrastructure as the single wholesale network provider. The rollout aims to provide widespread 5G coverage by 2025, unlocking opportunities for advancements in smart cities, healthcare, and logistics.

Why is Malaysia moving from a single wholesale network to 5G?

Malaysia has taken a major step in its digital transformation by moving from a Single Wholesale Network to a Dual Network for 5G. This change, welcomed by the GSMA, is expected to boost competition, spur investment, and enhance mobile services.

Will Malaysia's second 5G network reach 80% coverage by 2026?

U Mobile has been developing Malaysia's second 5G network alongside Digital Nasional Berhad (DNB). The new network is targeted to reach 80% coverage by 2026, potentially boosting competition and accelerating infrastructure development.
