Manila builds solar panel factory

Overview

MANILA – Silicon Valley-based Sol-Go Inc. has chosen to build its new solar panel factory in the Philippines over manufacturing hubs in the region like China and Vietnam. Where is SM Prime putting solar panels in the Philippines?

The largest installation is at SM City Santa Rosa. With a total of 96,000 solar panels across malls in Luzon and Visayas, SM Prime holds the Philippines' largest solar energy portfolio, covering around 33 hectares. These efforts are a vital part of the company's Net Zero by 2040 strategy, aimed at reducing its carbon footprint.

Is the Philippines' solar panel industry ready for significant growth?

As we explore the implications of this expansion, it's clear that the Philippines' solar panel industry is ready for significant growth in the region. With an investment of US\$150 million to US\$250 million expected in the coming years, the solar panel manufacturing industry in the Philippines is poised for significant growth.
