# Market share of solar panel manufacturers

## Overview

---

What is the global solar PV panels market size?

The global solar PV panels market size was estimated at USD 170.25 billion in 2023 and is projected to reach USD 287.13 billion by 2030, growing at a compound annual growth rate (CAGR) of 7.7% from 2024 to 2030.

Which country produces the most solar panels in the world?

The Asian industry continues to dominate the global ranking of solar panel manufacturers. Chinese companies hold eight of the top ten spots, including the entire podium. Who are the top 10 photovoltaic module producers in the world?

What is the market share of solar PV panels in 2023?

Based on application, the industrial segment accounted for a dominant share of over 40.0% in solar PV panels sector in 2023. Companies in the commercial and industrial sectors are among the major consumers of solar photovoltaic panels owing to the large-scale demand for green energy.

How competitive is the global solar PV panels industry?

The global solar PV panels industry is competitive with key participants involved in R&D and constant innovation. It has become one of the most important factors for companies to perform in this industry.
