

Metal clad switchgear factory in Nicaragua

Overview

Who makes metal clad & metal enclosed switchgear?

Powercon Corporation, located in Severn, Maryland, manufactures quality Metal-Clad and Metal-Enclosed Switchgear as well as a variety of other products serving the needs of the electrical industry.

What is a metalclad switchgear?

Metalclad Switchgear (5kV to 38kV): Our metalclad switchgear is suitable for both indoor and outdoor installations, providing reliable power distribution in harsh environments.

What is a switchgear Assembly?

A switchgear assembly completely enclosed on all sides and top with sheet metal (except for ventilating openings and inspection windows) containing primary power circuit switching and/or interrupting devices with buses and connections and possibly including control and auxiliary devices.

What is a custom manufactured switchgear?

Our custom manufactured switchgear solutions are designed to meet companies' specific power distribution equipment needs, and we are known as the preferred choice among custom switchgear manufacturers. We offer a wide range of stainless-steel, metal-enclosed, and metal-clad switchgear, as well as switchboards ranging from 208V to 38kV.

Metal clad switchgear factory in Nicaragua
