Micro circuit breaker factory in Philippines

Overview

Are miniature circuit breakers safe in the Philippines?

In the Philippines, where reliable electrical safety is crucial for homes and businesses, miniature circuit breakers (MCBs) are essential for protecting circuits from overloads and short circuits. However, navigating the market for quality yet affordable MCBs can be challenging.

What is a miniature circuit breaker (MCB)?

A Miniature Circuit Breaker (MCB) is a vital component within an electrical distribution system that safeguards electrical circuits and appliances from overcurrents and short circuits. It is an automatic switch that can promptly disconnect a circuit if it detects abnormal conditions, preventing damage to wiring, equipment, and even fire hazards.

Who makes the best circuit breakers?

When it comes to circuit breakers, Zenith provides a very wide selection. Their brands are ABB and Gewiss Electrical. They have air circuit breakers and miniature circuit breakers in various current ratings and amperes. Mega Himel is a distributor and supplier of low-voltage products.

How much does a MCB cost in the Philippines?

Premium MCBs: ₱800–₱2,000+ per pole (industrial-grade with smart features). CNC Electric, a rising name in the Philippine market, offers MCBs that balance affordability and reliability without cutting corners on safety. Here's how they compare:
