# Middle East 750kw8400kwh energy storage power station

## Overview

---

Will ACWA Power Power the Middle East's 'first battery Gigafactory'?

ACWA Power has agreed to deploy wind energy and battery capacity to help power what is claimed will be the Middle East and Africa region's 'first battery gigafactory.'

Where will a 200MW solar project be built?

The 200MW solar, 500MWh BESS project will be built in Uzbekistan's Tashkent region, as reported by Energy-Storage.news in July. ACWA Power will deploy wind energy and battery storage to help power the Middle East and Africa region's 'first battery gigafactory.'

Does the Middle East have a power supply?

Yet as the Middle East is flush with cheap natural resources, the region's power makeup is still almost exclusively dominated by oil and gas.<sup>4</sup> The region currently uses oil and natural gas to meet 97 percent of its electricity needs. Economic growth hinges upon connectivity and power generation.

What is changing in the Middle East's power sector?

This thought-provoking report will broaden the understanding of any audience confronting the changing dynamics of the Middle East's power sector. The power market is transforming as energy independence and economic diversification play a bigger role.
