# Mobile Solar Inverter

## Overview

---

What is a mobile inverter?

A mobile inverter is a device that converts DC electrical current to AC current and is versatile in its mobility. Mobile inverters are really just a regular DC to AC inverter that is installed in an RV, a boat, or any other mobile platform. Mobile inverters can be used almost anywhere where there is a battery or a battery bank present.

What is a mobile solar system?

While most people associate solar power systems with large, fixed solar panels wired directly to a home or business, mobile solar systems offer a practical and affordable power solution for a range of applications.

Is aims power a good solar inverter?

The AIMS Power 10,000W Pure Sine Inverter is highly adaptable and can work with just about any type of solar power system. Best of all, it is practical for mobile solar systems, as it is fairly compact and does not weigh as much as the larger units.

How do I build a mobile solar power system?

To build an effective mobile solar power system, you will need to purchase solar panels, a charge controller, a battery bank, and an appropriate power inverter. You may also need other components, like mounting brackets and additional wiring, but understanding the four main pieces of equipment is a great place to start.
