

# **Modular uninterruptible power supply UPS in Saint Petersburg Russia**

## Overview

---

What is the global modular UPS market worth in 2022 & 2023?

The Global Modular UPS market was worth \$1,663.2 and \$1,805.1 million in 2022 and 2023. The market is still in its growth stage. The market is expected to grow at a high pace during the forecast period, almost three times as fast as the traditional UPS market. Growth rates are expected to decline slightly after 2025. Frost &.

Why are ups manufacturers focusing on large-power modular systems?

UPS manufacturers are starting to focus on large-power modular systems, mainly due to increasing demand from the data center vertical and the increasing end-user awareness level on both operational and technical advantages.

What is a modular UPS XL?

The MODULYS XL is a modular UPS based on 200 kW power modules. The power of a single UPS unit can be increased up to 1200 kW and the system can include up to 4 units in parallel. The .

What is a modular UPS?

Source: Frost & Sullivan A Modular UPS is one that can be built using several building blocks/individual UPS modules (where each individual module is a UPS in its own right). It features scalability, N+1 redundancy, and hot-swap capability which increase reliability and secure the backup-power unit during maintenance and repair.
