Monaco imports energy storage equipment

Overview

What is the import industry in Monaco?

Monaco's import industry is smaller than its export industry. As of 2014, the area's largest trading partners were countries in the European Union. Monaco also trades with the United States and China. All food in Monaco is imported because there is no agricultural land in the region. The principality is completely urbanized.

How does Monaco import & export?

Monaco imports and exports through a full customs integration with France, and France collects and refunds all customs duties and tariffs. The residents of Monaco do not pay income taxes, which makes this small area great for getting good deals on imported items.

What is energy in Monaco?

Energy in Monaco describes energy production, consumption and importation in the Principality of Monaco. Monaco has no domestic sources of fossil fuels and relies entirely on imports of electricity, gas and fuels from France.
