

# Myanmar has built an energy storage power station

## Overview

---

Does Solis have an off-grid battery energy storage system in Myanmar?

Solar tech leader Solis is making waves in Southeast Asia with its new energy solution — an off-grid Battery Energy Storage System (BESS) in Myanmar.

Will Myanmar build solar power plants?

On the occasion, Secretary of the State Administration Council Lt-Gen Aung Lin Dwe said as Myanmar is rich in renewable energy sources such as hydropower, solar and wind power, it will make full use of the advantages provided by the nature and build solar power plants.

How will electricity be supplied in Myanmar?

Electricity will be supplied for local use in accordance with the ratio of shares held by Myanmar in the joint-venture company. The agreement to set up this company is an important step in the implementation of the project. (BKK Post, 18/12/02).

How will Myanmar's new hydropower station work?

The new hydropower station in Myanmar is a run-of-river type, which involves no resettlement, little land inundation, and environmental impact. It has an installed capacity of 600 MW, with an actual power supply of 174.8 MW and an annual power output of 4,033 GWh. The electricity will be transmitted to both Myanmar and China through 230 kV and 220 kV cables.
