New Delhi BESS house outdoor communication power supply

Overview

Why should India invest in a Bess storage facility?

With a significant increase in renewable energy generation capacity, it is imperative that storage facilities are developed to help India and the world transition to clean energy. With an annual tariff nearly 55% lower than the previous benchmark, the project sets a new standard for BESS affordability in India.

When will BRPL's 20 mw/40 MWh Bess be installed?

“The 20 MW/40 MWh BESS was delivered on a turnkey basis under a long-term battery energy storage capacity agreement (BESPA) with BRPL. Installed and commissioned in just 11 months, ahead of schedule, the system became operational in April 2025.

How geapp helped BSES Rajdhani Power Limited & BRPL?

GEAPP, in collaboration with IndiGrid and AmpereHour Energy, assisted BSES Rajdhani Power Limited (BRPL) in commissioning the 20 MW/40 MWh BESS project in New Delhi at a record-breaking 20-month delivery schedule.

Why does the Bess Consortium support large-scale storage deployment?

“The BESS Consortium’s support for large-scale storage deployment reflects the growing recognition that universal access to renewable energy and the energy transitions of emerging markets must be fast, inclusive, and resilient.
