

New Zealand telecommunications tower foundation laid

Overview

Who designed Auckland Sky Tower?

This iconic building is testament to the skills of all involved in its design. Completed in 1997, Beca is proud to have designed Auckland Sky Tower - currently the tallest freestanding structure in the southern hemisphere & an icon of structural engineering.

Where is the Sky Tower in New Zealand?

The Sky Tower is a telecommunications and observation tower in Auckland, New Zealand. Located at the corner of Victoria and Federal Streets within the city's CB.

Why is the Sky Tower important to New Zealand?

The Sky Tower was envisioned as a solution that would not only enhance the city's skyline but also provide a platform for various activities that would attract both locals and tourists alike. Today, the Sky Tower is a testament to New Zealand's ingenuity, attracting millions of visitors each year while also contributing to Auckland's economy.

Why was the Sky Tower lit up for 3 days in Auckland?

After SkyCity initially refused requests from members of the public to lend support, Phil Goff as mayor of Auckland intervened and the Sky Tower was one of three Auckland landmarks that was lit up for three days (the others were the Auckland Harbour Bridge and Auckland War Memorial Museum).
