New solar inverter in Osaka Japan

Overview

Who makes Hitachi solar inverters?

Established in 1910 and headquartered in Tokyo, Japan, Hitachi is renowned for integrating advanced technologies into renewable energy systems, making it a trusted name in solar power solutions worldwide. Key Products and Services: Hitachi offers a wide range of solar inverters, including grid-tied models with high efficiency.

How big is Japan's solar industry?

The Japanese solar industry, with a current capacity of 75 GW, is set to reach 108 GW by 2030, driven by a 9.2% CAGR and expected to exceed USD 10 billion in revenue by 2025. Government policies, including Feed-in Tariffs, and growing investments in residential, commercial, and utility-scale projects.

Why do Japan import solar inverters?

Solar inverters, essential for converting DC electricity (produced by solar panels) into usable AC electricity, are imported into Japan at a 0% duty rate. This lower tariff helps keep the cost of adopting solar energy systems affordable for businesses and consumers in Japan.

Where is Hitachi solar based?

Key Markets: Hitachi operates in Japan, India, and other global markets, with extensive involvement in the development of large-scale solar projects across Asia and beyond. Company Video: We provide custom solutions to all our customers and offer free consulting or samples that you can take advantage of.
