

# Niger greenhouse solar panel size

## Overview

---

How many households can a 50MW solar power plant supply in Niger?

The 50MW capacity Gorou Banda PV solar power plant is capable of supplying 500 000 households in Niger. Equipped with 55,776 solar panels installed on a 27-hectare site located just 12 km from the capital Niamey, the plant will be operational from 25 August 2023, the planned date for connection to Niger's national electricity grid.

How much electricity can a solar farm produce in Niger?

The solar farm will be capable of producing 53 GWh of electricity per year, enough to supply 70,000 homes, or 500,000 people in the capital Niamey, according to the Niger government. The plant is also expected to prevent the emission of 23,000 tonnes of CO2 equivalent per year.

How many solar panels are installed in Niamey?

Equipped with 55,776 solar panels installed on a 27-hectare site located just 12 km from the capital Niamey, the plant will be operational from 25 August 2023, the planned date for connection to Niger's national electricity grid. "This power station is designed to reduce load shedding in the Niamey region.

Who inaugurated the 50MW Gorou Banda solar power plant?

Niger Inaugurates the 50MW Gorou Banda Solar Power Plant - Africa's premier report on the oil, gas and energy landscape. Section: ENERGY TRANSITION · July 11, 2023 · No comments | Tags: energy, feature, featured The President of the Republic of Niger has inaugurated the Gorou Banda solar power plant in the centre of the country.

## Niger greenhouse solar panel size
