

FTMRS SOLAR

Nordic solar panels integrated on the roof

Overview

What is integrated solar roof?

Our award-winning integrated solar roof combines the traditional Nordic metal roof design with cutting-edge solar technology. Our solar roof is more than just a roof. It's a powerhouse designed to withstand any weather condition, including snow, ice, hail, and wind.

What is roofit solar?

Roofit.Solar combines highly efficient solar technology and stylish Nordic design for a streamlined, fully integrated result. Let us Introduce you to Roofit.Solar. Roofit.Solar is revolutionising the solar industry with its innovative 2-in-1 solar roofing solution.

Can solar panels be installed on a roof?

Instead of installing traditional solar panels on top of existing roofs, Roofit.Solar combines sleek, durable roofing with high-efficiency solar technology. This means homeowners can enjoy a stunning, modern roof that generates clean energy while maintaining the aesthetic integrity of their property.

How does roofit solar work?

Unlike standard solar panels, which are mounted onto a separate roof structure, Roofit.Solar integrates solar cells directly into its roofing material. This means you don't have to choose between sustainability and style – you get both in a single, efficient solution.

Nordic solar panels integrated on the roof
