# North American Energy Storage Batteries

## Overview

---

### What is North American Battery Systems?

North American Battery Systems is a major supplier of batteries and electrical products to truck fleets. They have over 120 distribution centers strategically located across North America and offer nationwide distribution of batteries, starters, alternators, and accessories. Let North American Battery Systems provide the solutions for your fleet's needs.

### Which segment dominates the North American battery storage system market?

The utility segment dominates the North American battery storage system market, commanding approximately 82% of the total market share in 2024, while also exhibiting the strongest growth trajectory with a projected growth rate of around 9% from 2024 to 2029.

### How many battery energy storage systems are being built in Texas?

October 2024: RWE began constructing three battery energy storage systems (BESS) in Texas, increasing their total projects under construction to 931 MW across California, Texas, and Arizona. The Crowned Heron 1, Crowned Heron 2, and Cartwheel 1 projects in Texas will collectively provide 450 MW of power capacity and 900 MWh of storage capacity.

### How much battery storage is available in 2024?

The United States Energy Information Administration reports that approximately 8.8 GW of grid-scale battery storage was operational as of late 2024, with plans to add another 20.8 GW of battery storage capacity in the coming years.
