Norway 5g solar container communication station EMS

Overview

What are the 5G regulations in Norway?

There are no specific 5G regulations in place. However, the Norwegian Electronic Communications Act (Ekomloven) says that authorities may order providers with significant market power to meet any reasonable request to enter into or amend an agreement on access to electronic communications networks and services.

Are Nordic operators celebrating 5G availability?

Analysis of Speedtest Intelligence ® data confirms that Nordic operators have much to celebrate. In Q4 2024, Nordic countries claimed three of the top five positions in Europe for 5G Availability—the percentage of users with 5G-capable devices spending most of their time connected to 5G networks.

Does Tele2 support 5G deployments in rural Norway?

Financial support of €140 million from the European Investment Bank (EIB) to Tele2, which also benefits Telenor through their Net4Mobility joint venture, has been instrumental in supporting 5G deployments in these rural areas of Sweden. Similar financial instruments are aiding 5G deployments in rural Norway.

Is 5G a key to digital transformation in Nordic countries?

Nordic countries have consistently prioritised 5G access as a cornerstone of ambitious national digital transformation strategies. For example, the Norwegian government has introduced a range of policy measures aimed at achieving its goal of becoming the “world’s most digitalised country by 2030”.
