

# **Order of flat-plate solar tiles for self-built houses in Stockholm**

## Overview

---

What are solar roof tiles?

Unlike traditional solar panels that are mounted on top of a roof, solar roof tiles replace the traditional roofing material itself, offering a seamless design that blends into the structure of your home. This innovative roofing system allows homeowners to enjoy the benefits of solar energy without compromising on aesthetics.

What is a goodwe solar roof tile?

The GoodWe Sunshine Series is an integrated solar roof tile solution for pitched rooftops to replace traditional solar panels and framework for a sleek, aesthetically-pleasing result, that also maximises your rooftop space for more solar production. The integrated tempered double-glass structure ensures the safety of the roof structure.

Will solar roof tiles become a standard feature in residential homes?

As more consumers seek sustainable living options, integrated solar roof tiles will become a central component of eco-friendly home building and renovation. By 2025, solar roof tiles could become a standard feature in residential homes, offering an effective way to generate renewable energy while maintaining the aesthetic integrity of the property.

What is a solar roof?

Solar Roof is comprised of both glass solar tiles and steel roofing tiles. Glass solar tiles produce energy, while architectural-grade steel tiles add longevity and corrosion resistance to your roof. Both are durable, strong and engineered for all-weather protection.
