Outdoor Power in Haiti

Overview

What challenges does Haiti face in generating and distributing electricity?

Haiti faces significant challenges in generating and distributing energy reliably, and lack of access to affordable and reliable power significantly hinders investment and business development. The majority of electricity is produced using imported fossil fuels.

How does electricity work in Haiti?

With very limited access to electricity, most of the population in Haiti depends on charcoal as a source of energy. The National Electricity Company (Électricité d'Haïti - EDH) was created in 1971 to operate the newly built Péligré hydroelectric plant and the nation's power system.

Can solar energy be used in Haiti?

Solar energy offers interesting prospects in Haiti, by offering energy self-sufficiency to the most isolated cities, in the absence of a power grid. The country's location in the tropics gives it very strong solar energy potential. It is believed solar energy will play a fundamental role in access to electricity over the next 10 to 15 years.

How much electricity does Haiti have?

Electricity in Haiti is 110 volts, alternating at 60 cycles per second. Most of the generation infrastructure in Haiti is very old and costly to maintain and operate. In 2006, total installed capacity was only 270 MW, of which about 70% was thermal and 30% hydroelectric.

2023 Haiti Energy Report Card

Jul 4, 2025 · HAITI Introduction This is the Energy Report Card (ERC) for 2023 for Haiti. The ERC provides an overview of the energy sector performance, highlighting the following areas: ...

Electrification in Haiti

May 5, 2025 · Independent Power Producers - IPPs1,2,3,4 Until 2020, 4 IPPs operated in Haiti. Presently, E-Power is the only IPP in operation, with plans to rehabilitate production at Pétion ...

Haiti

May 27, 2024 · Overview Haiti faces significant challenges in generating and distributing energy reliably, and lack of access to affordable and reliable power significantly hinders investment ...

Haiti Outdoor Power Plant

E-Power, a private firm that operates a 30 MW heavy fuel oil power plant in Cite Soleil, one of the capital's hardest-hit neighborhoods, is another key energy supplier in Haiti.

Haiti's crisis fuels a solar energy revolution

Jun 23, 2025 · Haiti's struggle with severe fuel shortages and an unstable grid has sparked a wave of innovative approaches to expanding energy ...

World Bank to Support Sustainable Energy Access in Haiti

Oct 18, 2024 · The electricity sector poses a major constraint to economic development, emergency response and recovery in Haiti. The sector is experiencing challenges exacerbated ...

Off-Grid Solar Installations in Haiti , LCRE

May 9, 2025 · In Haiti, access to consistent electricity has long been a challenge, especially in rural and underserved regions. Off-grid solar installations in Haiti are bridging that gap, ...

Haiti Electricity Generation Mix 2022 , Low-Carbon Power Data

Dec 5, 2025 · Haiti's electricity mix includes 81% Unspecified Fossil Fuels and 19% Hydropower. Low-carbon generation peaked in 1990.

Haiti

Mar 26, 2024 · The strategic development plan for Haiti plans to strengthen the private sector and provide basic services (including electricity) to the population. Energy was identified as one of ...

3. Market Potential for Off-Grid Solar in Haiti

Mar 26, 2024 · The strategic development plan for Haiti plans to strengthen the private sector

and provide basic services (including electricity) to the population. Energy was identified as one of ...

Haiti's crisis fuels a solar energy revolution

Jun 23, 2025 · Haiti's struggle with severe fuel shortages and an unstable grid has sparked a wave of innovative approaches to expanding energy access.

Haiti Electricity Generation Mix 2022 , Low ...

Dec 5, 2025 · Haiti's electricity mix includes 81% Unspecified Fossil Fuels and 19% Hydropower. Low-carbon generation peaked in 1990.

Off-Grid Solar Installations in Haiti , LCRE

May 9, 2025 · In Haiti, access to consistent electricity has long been a challenge, especially in rural and underserved regions. Off-grid solar ...

Haiti

3 days ago · Haiti has 5 power plants totalling 51 MW and 185 km of power lines mapped on OpenStreetMap.
