Outdoor construction site solar lights

Overview

What is solar outdoor lighting?

Solar outdoor lighting refers to light fixtures that collect energy during the day and switch on while it's dark. They are a great option for illuminating pathways and steps, or gardens and flowerbeds. Solar outdoor lighting helps reduce energy usage.

What is a mobile solar lighting tower?

The Mobile Solar Lighting Tower comes in a variety of configurations to meet your site lighting, temporary construction lighting or construction site lighting plans. Because these portable construction lights are powered by the sun, they run completely silent and create no vibration.

What is commercial solar powered portable lighting?

Commercial solar powered portable lighting is an efficient way to drastically decrease electricity bills. Our 100% off-grid system helps you save big money as it does not require trenching and has low maintenance costs for temporary construction lighting. Greenshine has more than 30 years of experience in offering portable led light towers.

Why should you choose a portable solar light tower?

Less maintenance means less time and money spent on temporary lighting for construction sites. Our portable solar light towers are constructed with mono-crystalline panels that are the most efficient on the market today (20% of total possible power), surpassing poly-crystalline (rated at 15% efficiency).
