## Overview

What are the best outdoor lights for outdoor spaces?

Our top pick for most outdoor spaces is the AloftSun Motion Sensor Solar Landscape Spotlights. We love these lights so much, we've tested them twice. Both times we found them to be durable, easy to use, and bright. We also love that these spotlights can detect motion from as much as 33 feet away, depending on the setting.

How do I choose the best outdoor lighting?

For optimal lighting, consider using a mix of outdoor lights around your property, including ground lights, accent lights just above eye level, and fixtures installed on the roof or above your driveway. For walkways, pathway lights on stakes are a popular choice.

What are the best solar-powered string lights?

Stringing: Solar-powered string lights like our best string lights pick, the Brightech Solar LED String Lights, can provide ambiance to your outdoor space all year.

Are solar-powered outdoor lights LED?

Almost all solar-powered outdoor lights are LEDs, with either integrated or replaceable bulbs. Solar lights are overwhelmingly powered by LEDs because they consume significantly less energy than traditional incandescent or fluorescent bulbs, allowing for smaller batteries and longer operational times.
