Paris Energy Storage Project

Overview

What is the Paris energy project?

The Paris energy project is an opportunity to invest in the community, create jobs, and increase tax revenues while generating clean, American made energy. The project is located in the Town of Paris, Kenosha County, Wisconsin, north of and adjacent to State Highway 142 and west of Interstate Highway 94.

Will ABN AMRO be the largest battery energy storage system in France?

Dan Dorner, Chief Commercial Officer Corporate Banking said: "We are happy to have supported this landmark project, which will become the largest battery energy storage system in France upon its completion. This marks ABN AMRO's first BESS transaction in France, and builds upon our broader BESS and renewable energy track record.

Does France's energy transition plan align with French energy transition goals?

Christophe Léonard, Managing Partner for France at TagEnergy, highlighted the project's alignment with France's energy transition goals: " The trajectory outlined in France's Multi-Annual Energy Plan, currently under public consultation, calls for a 2.5-fold increase in wind capacity and a 4-fold increase in solar capacity by 2035.

How will the Cernay Bess contribute to France's energy sovereignty?

"Leveraging an innovative financing structure and deploying storage at scale, the Cernay BESS will contribute significantly to France's energy sovereignty while enhancing grid stability as renewable energy penetration grows" he added.
