

# **Philippine Cebu Energy Storage Machinery Equipment Supply Station**

## Overview

---

Is Aboitiz Power Building a hybrid battery energy storage system in Cebu?

MANILA, Philippines — Aboitiz Power Corp. is building a 30-megawatt hybrid battery energy storage system (BESS) project within the Mactan Economic Zone in Cebu. Slated for commissioning in the first half of 2026, the project is poised to become one of the first large-scale energy storage systems in Central Visayas.

What is a hybrid energy storage system in Central Visayas?

Considered one of the first large-scale energy storage systems in Central Visayas, the hybrid BESS will provide ancillary services by storing surplus electricity and releasing it to the grid when needed to help stabilize power supply.

What's new at MGen Cebu?

The Cebu facility is the second for MGEN after the planned 4,500 megawatt-hour energy storage project in Nueva Ecija, which broke ground in November 2024. President Ferdinand R. Marcos Jr. was present during the groundbreaking of the Terra Solar Project, the largest integrated solar and battery storage facility in the world to date. (PNA).

Will EAUC be the first large-scale energy storage system in Central Visayas?

Slated for commissioning in the first half of 2026, the project is poised to become one of the first large-scale energy storage systems in Central Visayas. It will be developed through East Asia Utilities Corp. (EAUC), a wholly owned subsidiary of AboitizPower. Financial details have yet to be disclosed.
