Portable mobile fast charging power source

Overview

Wireless charging has become popular because it allows you to power up compatible devices without a cable. Qi is the dominant standard for compatible Android phones (up to 15W), while Apple iPhone.

Why should you use a portable charger?

In a situation like this, a portable charger —also called a power bank or battery pack—can feel like a lifesaver. Backup batteries are even more critical if you need to charge your electronics while the power is out after a storm.

How much power does a portable charger use?

Some more powerful portable chargers also have 100-watt AC outputs, allowing you to insert a standard two- or three-pronged plug. For speedy laptop charging, you likely want a portable charger capable of outputting 100 watts of power or more, while around 18 watts or more could provide fast phone charging.

Which portable charger charges the fastest?

If you're looking for the fastest pocket-friendly portable charger, get the Iniu. While most people may not have a 45W-charging phone, the Anker Nano is the best choice for most people due to its ease of use.
