

Price of generator inverter

Overview

What is the cost of an inverter generator?

Large inverter generators cost between \$1,400 and \$4,000.

How much does an RV inverter Generator cost?

An inverter generator that will run everything in the RV including an AC unit is under \$1000. Inverter generators can easily run high wattage devices like microwaves, hair dryers, and yes, even air conditioners. They are so simple – all you have to do is plug in the RV power cord and fire up the generator. It really is that simple.

What is an inverter generator?

The Inverter Generator is classified under our comprehensive Gasoline Generator range. Gasoline generators in the industrial equipment & components sector generally have power output ranging from X to Y kilowatts, catering to various needs. Verify the specific power requirements of your application to select the suitable gasoline generator model.

What can a large inverter generator power?

Large inverter generators produce enough energy to power essentials like a refrigerator and even a small air conditioning unit. These generators offer up to 7,500 watts, costing between \$1,400 and \$4,000, and weighing between 250 and 350 pounds or more.
