

# **Price of multifunctional home inverter**

## Overview

---

What are the best solar inverters for homes?

EnergyPal offers the best solar inverters for homes by value, price, wattage & warranty. Our 2023 Buyer's Guide reviews Enphase, SolarEdge, Fronius, SMA, and Huawei.

How much does a solar inverter cost?

The cost varies based on type and capacity, ranging from \$500 to \$10,000+.

2. Which solar inverter is best for home use?

Fronius Primo, SMA Sunny Boy, and Enphase IQ 7A are among the best options.

How much does a microinverter cost?

While they cost more than string inverters, averaging \$1.15 per watt, they offer the benefit of independent panel optimization. For a 5 kW system, the cost is approximately \$5,750. Microinverters generally come with warranties of around 25 years, which aligns with the expected lifespan of the solar panels themselves.

Will solar inverters be available in 2025?

By 2025, advancements in technology will bring even more innovative options to the market, making it easier than ever to transition to solar power. Off-grid solar inverters are ideal for homes without access to the utility grid or those seeking complete energy independence.
