# Prices of multicrystalline solar modules in Auckland New Zealand

## Overview

---

How much does a solar panel cost in New Zealand?

You'll pay around \$8,000 fully installed. While global demand bumped prices slightly in 2022 and 2023, costs are falling again in 2025 — thanks to sharp drops in solar panel pricing. Use our free 3 Solar Quotes Service to compare competitive prices from top-rated installers. [What Is The Cost Of A Solar Panel System In New Zealand?](#)

How much does a 440w solar panel cost in New Zealand?

A single 440W solar panel in New Zealand costs around \$230. But panels are just one part of the puzzle - you'll also need an inverter, mounting gear, and professional installation to turn those panels into a fully functioning solar power system. [Find out how to choose solar panels here. Should I Wait For The Price Of Solar To Fall?](#)

Are solar panels on the rise in NZ in 2025?

Solar panel costs in NZ in 2025 are on the rise, and this trend is expected to continue. If you've been considering solar energy for your home or business, now is the time to take action and install solar panels in your home. Recent industry analyses indicate that solar module prices have begun to rise for the first time in over two years.

What is a typical grid-connected solar system size in New Zealand?

Common residential grid-connected system sizes installed in New Zealand range between 3kW and 5kW. [View grid-connect solar power system prices here.](#) Learn more about grid connect systems.
