Purchase Guide for Photovoltaic Containerized DC Generators

Overview

What is a containerized diesel generator set?

This containerized diesel generator set is developed by Ausonia S.r.l. This generator set is custom made specifically for power plants in LV and mV . DIESEL GENERATORS T2 T2 series diesel generators adopt PowerLink engine to meet the needs of energy service production. Their power ranges from 8KW to 3500KW.

What are factory-packaged containerized generator sets?

Our factory-packaged containerized generator sets are designed to address these challenges comprehensively. They offer a reduced footprint, improved ease of transportation and significantly shorter lead times.

What is a containerised generator?

Our Containerised Generators deliver robust, high-capacity power from 300-3,000 kVA in secure, weather-resistant enclosures. Designed for challenging environments and critical applications, they offer noise reduction, easy transport, and bespoke configuration to meet your site's exact needs.

Are containerized generators reliable?

Years of use in the rental, oil and gas, mining and other heavy-duty industries have tested the reliability, usability and durability of our containerized generators. Our primary design challenges in developing this line of containerized generators were usability, reliability and functionality for the end user.
